

HOMEPAGE FIXES & IMPROVEMENTS

1. Mobile Padding Issue (Important)

Problem:

- Sections are too tight on mobile
- Left/right spacing inconsistent
- Content touching edges → looks unprofessional

Also ensure:

- No element has `padding: 0` on mobile
- Use consistent spacing across all sections

2. Font Change (Very Important for Branding)

Current Issue:

- Font looks generic, not premium
- Not suitable for construction/real estate branding

Recommended Fonts:

Headings:

- **Poppins (Bold / SemiBold)**
OR
- **Montserrat (Professional look)**

Body Text:

- **Open Sans**
- **Roboto**

3. Stats Section Update (MUST CHANGE)

Current (from website):

- 200+ Projects
- 16+ Years Experience

Change to:

- ✓ **350+ Completed Projects**

- ✓ 17+ Years Experience

Also Improve UI:

Add animation counter:

4. Add Video Content

Add Sections:

A. Testimonial Videos

- Replace text testimonials with:
 - Client face videos
 - Before/after clips

B. Instagram/Reels Section

Add:

- Horizontal scroll video slider
- Show:
 - Site progress
 - Traditional construction work
 - Manduva houses

5. "Why Choose Us" – Image Fix

Current Issue:

- Generic/placeholder images used
- Not aligned with real construction work

Replace With:

Use real:

- Under-construction site photos
- Workers, materials, structure stages
- Concrete, steel, traditional materials

6. Content Improvement

Problem:

- Repetitive text:
“High-quality construction services tailored to your needs”

Fix:

Write unique descriptions for each service:
